

RADIA IDELKADI

Technical-Functional Consultant

idelkadiradia@gmail.com +212 6 43 56 50 89 Rabat [linkedin.com/in/radia-idelkadi](https://www.linkedin.com/in/radia-idelkadi) GitHub

PROFILE

Technical-Functional Consultant with a strong background in **Java** / **Angular** development, currently involved in a compliance project regarding the electronic invoicing reform in France. Experienced in gap analysis, requirements definition, and the implementation of tailored technical solutions. Self-driven, rigorous, and highly adaptable, comfortable with technical debugging and investigation as well as client meetings and project coordination.

PROFESSIONAL EXPERIENCE

Technical-Functional Consultant

April 2025 – Present

Cegedim, Rabat / Internship: April – July 2025 / Full-Time (CDI): Since September 2025

- **Analysis & Compliance:** Conducted studies of existing systems and analyzed requirements/specifications to identify gaps and adapt solutions for the electronic invoicing reform.
- **Configuration & Data Flows:** Implemented technical solutions through internal tool configuration, alongside data flow processing and adaptation using **XML** and **XSLT**.
- **Quality, Debugging & VSR Support:** Investigated errors during testing/integration phases and managed post-go-live (VSR) debugging down to root cause identification and patch delivery.
- **Client Relations & Coordination:** Facilitated client meetings to explain technical aspects, provided functional guidance, tracked requirements, and acted as a liaison with technical teams.
- **Agility & Tools:** Rapidly learned and mastered proprietary internal tools for efficient configuration rollouts.

Technical-Functional Intern

April 2024 – July 2024

VisionOrientation, Agadir

- Participated in the design of an academic and professional orientation platform.
- Analyzed and modeled functional requirements using **UML** and created interactive wireframes/mockups with **Figma**.

Full-Stack Developer Intern

April 2023 – June 2023

ValaBleu, Agadir

- Designed and developed a crowdfunding platform using the **Laravel** framework.
- Actively participated in requirements analysis, system design, and full-stack feature implementation.

Web Developer Intern

July 2022 – August 2022

ValaBleu, Taroudant

- Designed and deployed a motorcycle rental and reservation website utilizing the **WordPress** CMS.

TECHNICAL SKILLS

Technical-Functional: Requirements & gap analysis, specification analysis (DO), system configuration, client support, meeting facilitation, evolution tracking.

Electronic Invoicing & EDI: Electronic invoicing, EDI, XML, XSLT, UBL 1.6 / 2.1, EN 16931, data flow analysis and control.

Backend (Java): Java 8+, Spring Boot, Spring Data JPA, Spring Security, REST API, JPA, Hibernate, Maven.

Frontend: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, RxJS, NgRx.

Databases: SQL, PostgreSQL, MySQL, MariaDB, MongoDB, SQL Server, H2.

Tools, Testing & Methods: Git, GitHub, JIRA, Postman, Swagger, Docker, Jenkins, UML, Figma, Agile, JUnit, Mockito, Jasmine, JaCoCo.

ACADEMIC PROJECTS

Neovesta – Residence Management Application

2023 – 2024

Full-Stack Java / Angular Project

- Designed and developed a comprehensive application for managing residents, contracts, services, and reservations.
- Built a Spring Boot backend exposing REST APIs, coupled with a dynamic Angular frontend.

EcoCycle – Recycling Management Application

2024 – 2025

Full-Stack Frontend Project

- Developed a responsive Single Page Application (SPA) for managing recycling requests, collection tracking, and a points system.
- Implemented centralized state management with **NgRx**, leveraged **RxJS**, and styled with **Tailwind CSS**.
